

*hope to learn :	Skills/Tools	Knowledge	Attitudes
Atlas of Weak Signals	doing 'intelligence analysis' for yourself / communities, situating ideas for projects in a wider speculative context	What other people (many of whom may be better informed / informed about other things than me) think/ predict about the future, and how they come to those conclusions	Heightened attention to cracks in the current situation where we might catch a glimpse of potential futures, enhanced perception of daily life with that frame
Biology & Agri	using biomaterials, placing projects in an ecosystem context, computational biology, biohacking	how lazy agriculture works?? hopefully.. what is possible and what not so easy in diy settings	familiarity with agri/bio
Community Engagement	connecting disperse knowledge to theory, staying rooted in reality	local (barcelona) knowledge based on other's experience, how it compares to my own / what I know about community engagement	more confidence in engaging with people in a proactive / collaborative way
Design studio - framing design interventions	getting better at selecting a project / prioritising, making MVPs etc	Design space theory, how people apply it	Output-oriented, pragmatic
Extended intelligences	AI model manipulation skills, maybe some coding, connecting cognitive science w/ AI usage	complex systems theory? AI math basics, ..	More confidence in using AI, better understanding of AI leading to more constructive attitudes in discussing it
Living with your own ideas	connecting my daily personal experience with visions and projects	how to involve myself personally in strategising and designing	clearer positioning in immediate community and societies

hope to learn :*Skills/Tools****Knowledge****Attitudes**

Tech beyond the myth	electronic skills, hardware hacking	deeper knowledge of certain technologies	more hands-on approach
MDEF Bootcamp	jumping into things quickly	the names of other mdef people and faculty, organisations and spaces in Poblenou and the larger St Marti area, ...	feeling at home at IAAC and in Barcelona
